

2 Finger

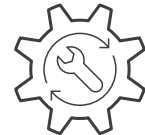

PARALLEL GRIPPER

Clamping Safety Device (-OS series)

MCHS (-OS) series

Features

Clamping Safety Device

Gripping force safety device for O.D. gripping even with a drop pressure (for OS type)

T Rail Design

Compact design to ensure minimum interference while operating and accurate gripping

Torque

Can reach maximum torque suitable for long jaws design

Gripping Force

Oval piston-driven design ensure maximum gripping force

Hose-Free

The air supply channel can connect directly or via threads

Dust-Proof Module

can prevent foreign matters (>0.5mm) entering the gripper
