

FIELDBUS SYSTEM

Communication Protocol & Plug-in Design

EtherNet/IP™

Modbus

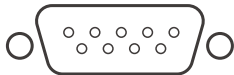

PROFI
BUS

PROFI
NET

MLC

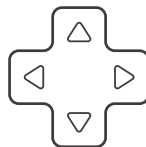

MVJB series

Features

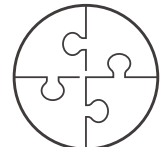

Communication Protocol

Heterogeneous network communication

Autonomous Logic Controller

Independent and simplified logic control without the need for a PLC

Flexible Expansion

Quickly expandable units and accessories based on demand, easy to maintain

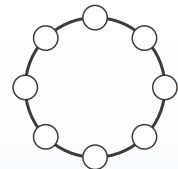

Energy-Saving

Intelligent power switching reduces energy consumption

Wire-Free

Solenoid valves require no wiring, enhancing durability and reliability

Compatible Topologies

Linear, ring, and star topology connectivity functions
